

CHOOSE A CAREER AT

GRŴP COLEGAU
NPTC
GROUP OF COLLEGES

There's a lot more to NPTC Group of Colleges than you may think!

As well as providing education and training, NPTC Group of Colleges is one of the largest employers in Neath Port Talbot and Powys - and it's not just teaching staff we employ.

We have eight campuses that cover a third of the landmass of Wales. Our largest sites are in Neath, Port Talbot, Newtown and Brecon. We employ around 900 staff and have some great career opportunities across the organisation for the right people including:

- **Management and Information Systems**
- **IT Services**
- **Accounting and Finance**
- **Human Resources**
- **Marketing and Communications**
- **Facilities and Estates**
- **Student Services**
- **Business Development.**

Of course we can't guarantee that we will have that perfect job you are looking for but we may be able to offer you work placement or an internship.

For all the latest vacancies at NPTC Group of Colleges visit our vacancies page:

- **Flexible Working**
- **Staff Support Services**
- **Childcare Vouchers**
- **Eye Care Vouchers.**

NPTC Group of Colleges is also a great place to work but don't just take our word for it.

Little did James Llewellyn know that when he started his studies at NPTC Group of Colleges around 13 years ago his journey with the organisation had only just started.

His engineering career began when he enrolled on a Performing Engineering Operations level 2 programme in Mechanical Engineering at the College in 2005.

After James gained his qualifications, he then successfully obtained a role as an engineering apprentice technician with the organisation and he has not looked back since.

The College encourages staff to develop their skills and gain valuable qualifications as part of its staff development programmes, and James, along with scores of other employees realising the benefits, took full advantage of the opportunities that came his way, helping him to progress through the organisation and develop his professional skills.

He has consistently progressed in the field of engineering, moving into teaching and now management as Deputy Head of Engineering.

"I love what I do, and I am very grateful to the College for helping me get to where I am today. I have a passion for my craft, and understand that I have a unique standpoint from being the student, apprentice, technician, instructor, lecturer and now management. I have always had strong support networks from mentors, colleagues and management and I have aspirations to continue with my professional development within the College and contribute when I can to my best of ability," he added.

Stephanie joined the College in 2003 as a part-time evening receptionist. The part-time role suited her whilst she studied for a BA Honours Degree in English and Sociology at Swansea University. Following her graduation in 2005, she decided to remain at the College. Stephanie was successful in gaining a HR Officer Trainee position. This post gave her the ability to gain a professional qualification whilst acquiring work experience. Since becoming an Associate Member of the Chartered Institute of Personnel and Development, Stephanie went on to hold a Senior Officer position in the HR department and most recently was appointed Assistant HR Manager.

"There are countless opportunities at NPTC Group of Colleges to gain additional skills and qualifications in all areas. I'm just one of many who have progressed as a result of the development opportunities. It genuinely is a great place to work."
